

Hey Princess,

No matter what world says or think about you, what is more important is what I think about you. I had been trying to get an employment in company from 07 months, but the turning day had come when I gave an interview and I saw you for the first time. At the same day I got an offer, you had been lucky for me; here it is what I think.

My life has turned completely in 2022, because when your footprint came into my life; I never expected to be at this point. Thanks a lot, I owe you for my success.

I have never dreamt about anyone except you. There is a lot to say, will do at some day.

With love,

Chotu Angel
